“Halal as the new source of economic growth”

Global Halal Market ~ US\$3.1 trillion/year

MARKET OUTLOOK

- The global market for cosmetics & personal care ~US\$150 billion (in 2004)
- Asia is the leading region in skin care consumption ~US\$ 17.4 (in 2004)
- Malaysia - RM 3.2 billion in 2005 - skin care accounts for 24% (RM 788 m)
- The global market for cosmetics & personal care ingredients is estimated US\$14.7 billion in 2005, with a growth of 5% per year through to 2010
- Asia Pacific make up 40% of the global skin care market
- With the global market for halal commodities valued at \$2 trillion, the estimated halal cosmetics in the Middle East is growing at 12% per annum and is valued at US\$2.1B

Three Main Issues in Pharmaceutical and Cosmetic Products

1

Raw materials

2

Processing

3

Authentication

GELATIN - PHARMACEUTICALS AND COSMETICS

- Capsule (soft and two-piece hard capsule)
- Tablets (binding, moisturizing and coating agent)
- Lozenges and cough drops
- Excellent stabilizer and emulsifier in pharmaceutical emulsions
- External application of drugs to treat various skin disorder

COMMON HARAM INGREDIENTS

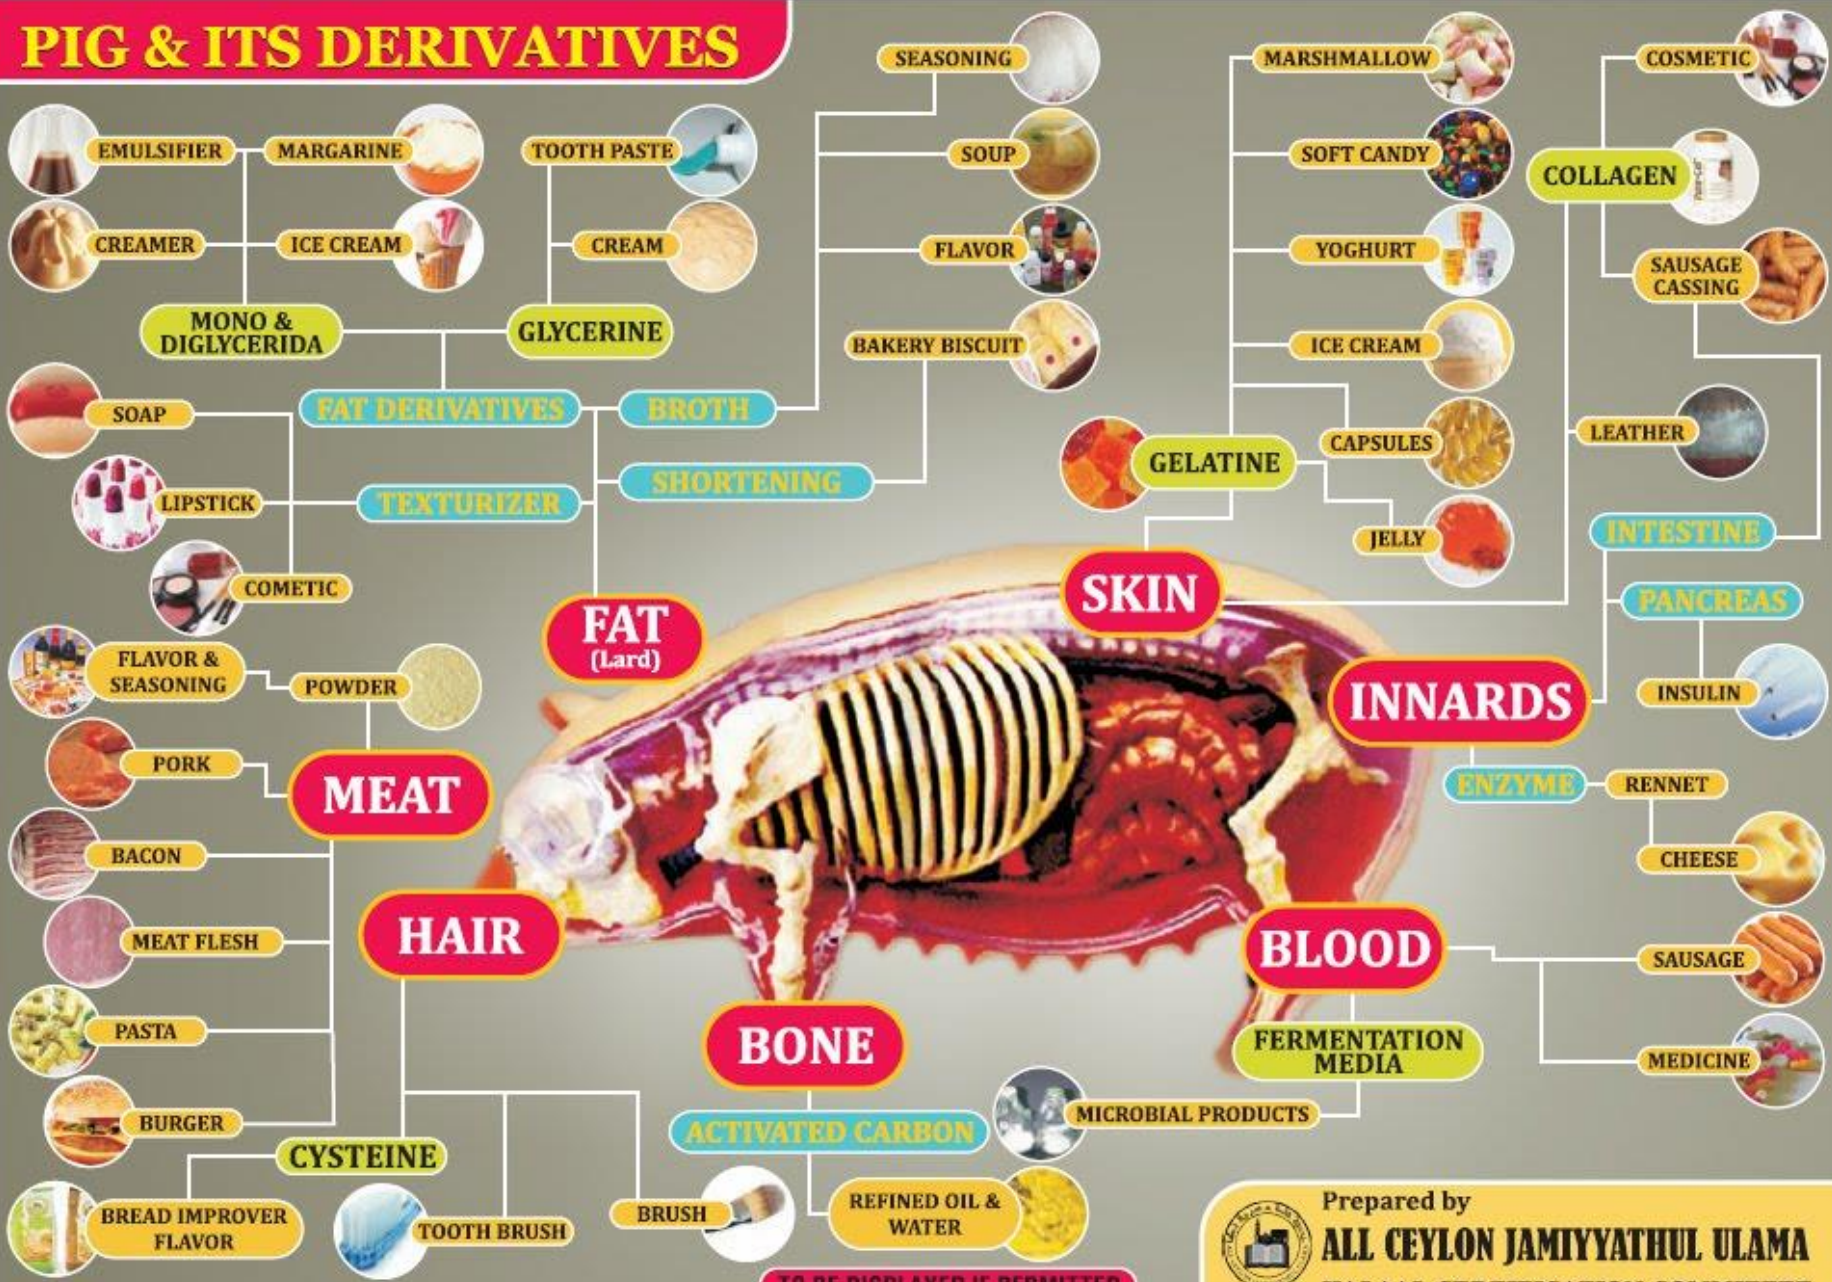

Placenta from human and animals

Lard

Gelatin and collagen (from pork or animal that was not slaughtered according to Shariah law)

Emulsifiers (from lard or animal fat that was not slaughtered according to Shariah law)

PIG & ITS DERIVATIVES

TO BE DISPLAYED IF PERMITTED

Prepared by
ALL CEYLON JAMIYYATHUL ULAMA
 HALAAL CERTIFICATION COMMITTEE

Ingredients Functions Cosmetic and personal care products

- Placenta - stimulate cell renewal in the body - stimulate blood circulation, Exp. Feminine hygiene, face masks, scrubs, wrinkle creams
- Alcohol (SD alcohol, cetyl alcohol, stearyl alcohol) - lubricant used to stabilize oil water emulsification - emulsifier & thickener Moisturizer, toner, deodorant, lotion, perfume
- Elastin (animal protein)
to maintain skin elasticity Elasticity cream
- Gelatin - repairs tissue - source of protein: Anti-aging cream, wrinkles cream
- Collagen - Stimulate the cell renewal Anti-aging cream

Past and Current Researches

- Gelatin from local goat for pharmaceutical capsules (in Indonesia)
- Fish gelatin (30 species)
- Production of fish gelatin nano-particles
- Encapsulation of bioactive peptide using gelatin nano-particles
- Production of plant-based gelatin replacers
- Development of portable device for rapid authentication of non halal gelatin
- Determination of gelatins in dental materials
- Camel gelatin project (with KSU)
- Seaweeds projects

GELATIN ALTERNATIVES

- Non mammalian - fish & poultry gelatin
- Polysaccharides - chemically/enzymatically modified (deacylated gellan, thermoreversible starch); mixed polysaccharide system
- Microbial gelatin via genetic engineering

A collection of various glass bottles and a pitcher containing golden-yellow oils, likely essential oils or cosmetic ingredients. The bottles are arranged on a reflective surface, and several cotton flowers are scattered around them. The text "HALAL COSMETICS" is overlaid in the center.

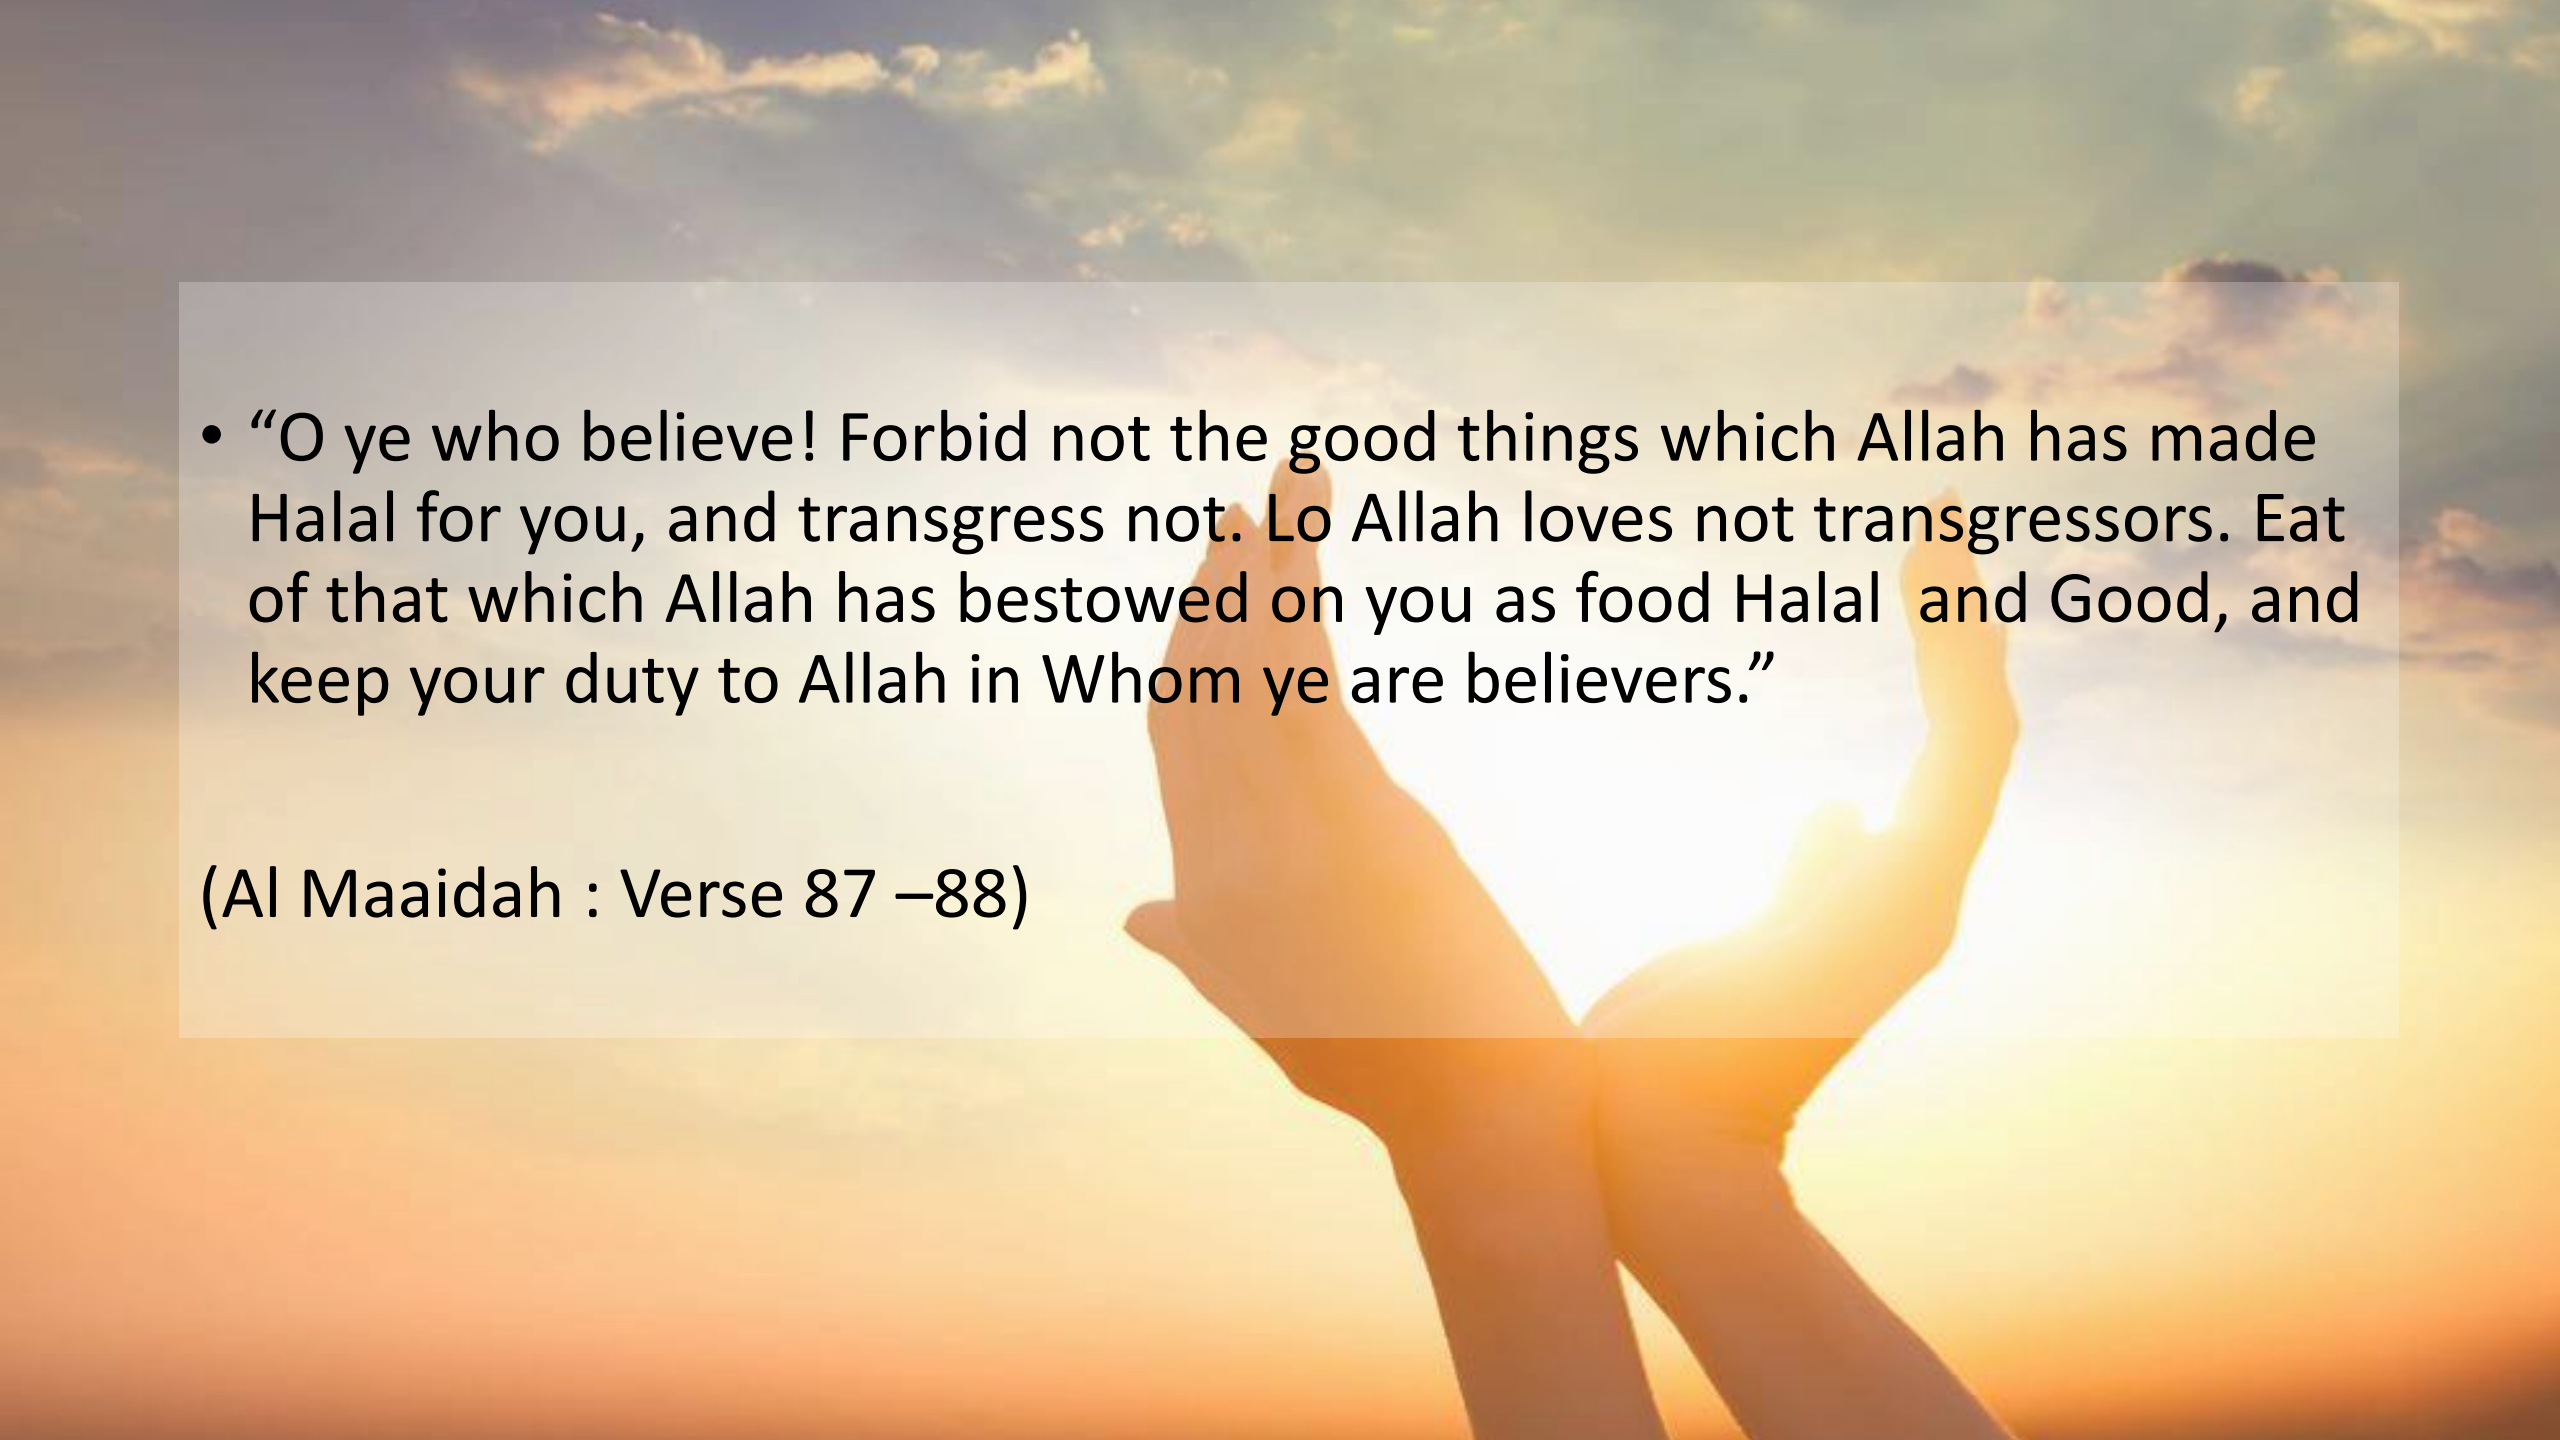

HALAL COSMETICS

PERSPECTIVE

```

From a religious
point of view

Form a business
point of view

- 
- A person's hands are raised in a gesture of prayer or supplication against a bright, hazy sunset sky. The hands are silhouetted against the warm, golden light of the setting sun, which is partially obscured by the hands. The sky is filled with soft, wispy clouds, and the overall atmosphere is serene and spiritual.
- “O ye who believe! Forbid not the good things which Allah has made Halal for you, and transgress not. Lo Allah loves not transgressors. Eat of that which Allah has bestowed on you as food Halal and Good, and keep your duty to Allah in Whom ye are believers.”

(Al Maaidah : Verse 87 –88)

COSMETIC DEFINITION

Articles intended to be rubbed, poured, sprinkle, sprayed on, introduced into or otherwise applied to the human body or any part thereof for cleansing, beautifying, promoting attractiveness or altering the appearance

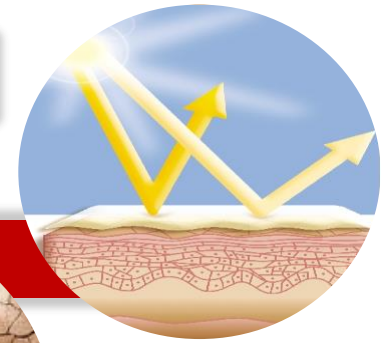

Any substance or preparation intended to be placed in contact with various external parts of the human body (epidermis, hair system, nails, lips and external genital organs) or with teeth and the mucous membranes of the oral cavity, with a view exclusively or mainly to cleaning them, perfuming them, changing their appearance and/or correcting body odors and/or protecting them or keeping them in good condition.

COSMETIC CLASSIFICATION

SKIN CARE COSMETICS

Protect skin from ultraviolet radiation and oxidation

Clean the skin

Preserve skin moisture

Stimulate skin metabolism

Cover face and eyes

Prevent from aging and acne

MAKE UP

Become more beautiful

Physiological effect

Give a more definite feeling

More enthusiastic about doing things and feel good because putting on makeup is fun

Give a sense of satisfaction to women who want to change their appearance

wiseGEEK

BODY CARE COSMETICS

- Application to the body incorporate the widest range of products

- Used on different part of the body to make body shape more beautiful

FRAGRANCES

- To beautify the wearer
- Give attractive scents to cosmetics thereby creating an internal feeling of beauty and inner wellbeing

**RAW MATERIALS, INGREDIENTS
AND ADDITIVES**

ADDITIVES

- Preservatives
- Color Perfume
- Therapeutic agents
- Vitamins
- Plant extract
- Opacifiers
- Pearlescing agents
- Viscosity agents

Rapid Detection of Haram Meat (pork) by Electronic Nose

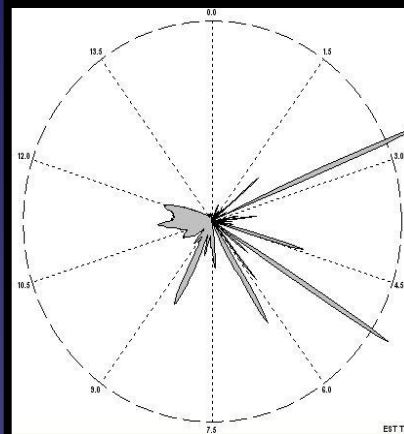

VaporPrint™

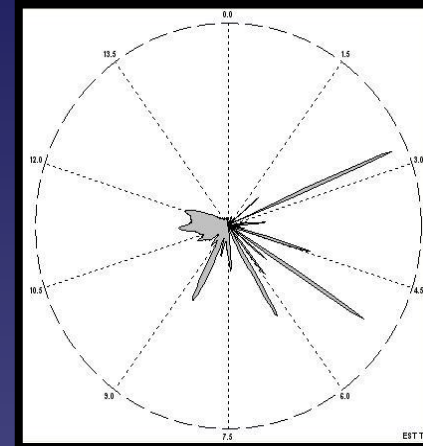

Pork

Chicken

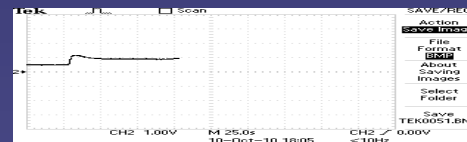

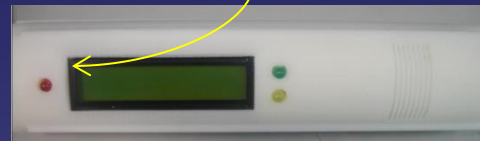

Beef

Mutton

Typical chromatograms of four different types of meat. Pork showed more aromatic compound corresponding to the number of peaks.

Rapid Detection of Ethanol Content in Beverages using IIUM-Fabricated Portable Electronic Nose (Jaswir, et al., 2010)

Ethanol Concentration, % (v/v)	Range of Voltage Response (V)
0.01	0.4
0.1	0.4-0.43
1.0	0.48-0.55
10.0	0.75-0.97
